📍 Mitchell Institute for Fundamental Physics and Astronomy, Texas A&M University, College Station, TX

Experience

Postdoctoral Research Associate

Mitchell Institute for Fundamental Physics and Astronomy
Texas A&M University

College Station, TX
Sept 2024 – Aug 2027
3 years

Education

University of Maryland

Ph.D. in Physics

Thesis: Unifying Searches for New Physics with Precision Measurements of the W Boson Mass
Advisor: Dr. Kaustubh Agashe

College Park, MD
Aug 2018 – July 2024

Boston University

Bachelor of Arts in Physics, Summa Cum Laude with Honors

GPA: 3.9
Minor: Mathematics
Thesis: Muon (g-2): Searching for the Muon Electric Dipole Moment
Advisor: Dr. Robert Carey

Boston, MA
Aug 2014 – May 2018

Research Interests

Beyond the Standard Model searches with Collider Physics: LHC and muon collider phenomenology, Randall-Sundrum and baryon-number-violation models

Searches for sub-GeV Dark Matter: dark matter-neutrino interactions, dark photon and dark sector production, cosmic ray-dark matter scattering

Neutrino Physics: supernova neutrino attenuation and detection, open-system observables, neutrinophilic mediators, neutrino NSI

Teaching

Principles of Modern Physics

Teaching Assistant, University of Maryland

Spring 2024

Electricity and Magnetism I

Teaching Assistant, University of Maryland

Spring 2024

Mathematical Methods for Physics II

Teaching Assistant, University of Maryland

Fall 2021, Fall 2022

Fundamentals of Physics I Teaching Assistant, University of Maryland	Summer 2019, Spring 2022
Introduction to Quantum Mechanics I Teaching Assistant, University of Maryland	Fall 2020
Fundamentals of Physics for Biologists II Teaching Assistant, University of Maryland	Spring 2019, Spring 2020
Fundamentals of Physics for Biologists Teaching Assistant, University of Maryland	Fall 2018, Fall 2019
Guest Lecture for Undergraduate E&M at University of Maryland Lectured on vector potentials in E&M	Mar 2024
Guest Lecture for Graduate E&M at Texas A&M University Lectured on relativistic Larmor formula and charged particle motion in magnetic fields	Oct 2025

Seminars

9. HEP Seminar at Northwestern University Cosmic Ray–Dark Matter scattering explanation of the Galactic Center Excess	Sept 2026
8. Fermilab Cosmic Physics Center Seminar Cosmic Ray–Dark Matter scattering explanation of the Galactic Center Excess	Sept 2026
7. CMS Exotica general meeting Unification of Searches and Measurements: Probing BSM with the W boson mass measurement	May 2024
6. Seminar at Texas A&M A New Purpose for the W-mass Measurement: Searching for New Physics via l + MET	Dec 2023
5. Seminar at UT Austin A New Purpose for the W-mass Measurement: Searching for New Physics via l + MET	Dec 2023
4. CMS SUSY general meeting A New Purpose for the W-mass Measurement: Searching for New Physics via l + MET	Nov 2023
3. HEP Seminar at University of Pittsburgh A New Purpose for the W-mass Measurement: Searching for New Physics via l + MET	Nov 2023
2. HEP Seminar at Northwestern University A New Purpose for the W-mass Measurement: Searching for New Physics via l + MET	Oct 2023

- | | |
|---|----------|
| 1. Theory Seminar at Washington University in St. Louis
A New Purpose for the W-mass Measurement: Searching for New Physics via l + MET | Oct 2023 |
|---|----------|

Conference Talks

- | | |
|---|-----------|
| 14. Light Dark World 2026 at Carleton University [Invited]
Can the LHC be sensitive to the Light Dark World? | July 2026 |
| 13. CETUP* Workshop [Invited]
Producing the GeV Galactic Center Excess via Cosmic Ray-Dark Matter Scattering | June 2026 |
| 12. Particle Physics on the Plains at the University of Kansas [Contributed]
A Baryon and Lepton Number Violation Model Testable at the LHC | Nov 2025 |
| 11. CETUP* Workshop [Invited]
Can the LHC be sensitive to light dark mediators? | June 2025 |
| 10. Phenomenology Conference at the University of Pittsburgh [Contributed]
Can the LHC be sensitive to light dark mediators? | May 2025 |
| 9. Particle Physics on the Plains at the University of Kansas [Contributed]
A comprehensive analysis of supernova neutrino-dark matter interactions | Nov 2024 |
| 8. Texas TACOS @ UT Austin [Invited]
A comprehensive analysis of supernova neutrino-dark matter interactions | Oct 2024 |
| 7. NuFact 2024 Conference at Argonne National Laboratory [Invited]
A comprehensive analysis of supernova neutrino-dark matter interactions | Sept 2024 |
| 6. Mitchell Conference at Texas A&M University [Invited]
A comprehensive analysis of supernova neutrino-dark matter interactions | May 2024 |
| 5. Particle Physics on the Plains at the University of Kansas [Contributed]
A New Purpose for the W-mass Measurement: Searching for New Physics via l + MET | Oct 2023 |
| 4. Phenomenology Conference at the University of Pittsburgh [Contributed]
Probing Dark Matter-Neutrino Interactions via Supernova Neutrinos | May 2023 |
| 3. Phenomenology Conference at the University of Pittsburgh [Contributed]
Model-Independent Measurement of Top Quark Mass Using B-Hadron Decay Lengths (Part I) | May 2022 |
| 2. April APS Meeting [Contributed]
Signals of KK graviton from extended warped extra dimensions at the LHC (II) | Apr 2021 |
| 1. Phenomenology Conference at the University of Pittsburgh [Contributed]
Signals of KK graviton from extended warped extra dimensions at the LHC (II) | May 2020 |

Service

The Mitchell Conference on Collider, Dark Matter, and Neutrino Physics 2026

Conference Organizer — Texas A&M University, May 27-30, 2026

The Mitchell Conference on Collider, Dark Matter, and Neutrino Physics 2025

Conference Organizer — Texas A&M University, May 13-16, 2025

Mitchell Institute High Energy Phenomenology, Experiment, and Cosmology Seminar Series

Weekly Seminar Organizer - Texas A&M University, Fall 2024 - Present

Awards

Breakthrough Prize in Fundamental Physics

Apr 2026

Awarded to the Muon g-2 Collaboration; recognized as a collaboration member

Ralph Myers & Friends of Physics Award

Dec 2019

Awarded by the University of Maryland Department of Physics

Ralph Myers & Friends of Physics Award

May 2020

Awarded by the University of Maryland Department of Physics

Alumni Award

May 2018

Awarded by the Boston University Department of Physics

Schools Attended

GGI Lectures on the Theory of Fundamental Interactions

Jan 2023

TASI 2024: The Frontiers of Particle Theory

June 2024

Outreach

BU Student Mentorship Program PRISM (2016-2018)

Mentored incoming freshman undergraduates in physics, providing guidance on courses, research opportunities, and resources

BU Outreach for Local High Schools

Helped demonstrate measurement of the charge-to-mass ratio of the electron for local high schoolers in physics

TAMU Physics and Engineering Festival (2025-present)

Presented demonstrations of fluid dynamics to the general public, including high school students and families

University of South Dakota talk: "My path through particle physics research so far" (December 2024)

Presented my path through particle physics research to students, showing a variety of interesting ideas to pursue

Skills

Programming:

Mathematica, Python, C++

Physics Software:

MadGraph5_aMC@NLO, Pythia6, Pythia8, Delphes, ROOT, GEANT4, FeynRules
